

Appreciation to Reviewers 2021

Peer-review is a critical component of scholarly publications. Some submissions require several review rounds to comply with quality standards. Recommendations from peer-reviewers are very valuable for Editors to make decisions on acceptance or rejection of submitted manuscripts. Archivos de Neurociencias provides recognition to peer-reviewers through Publons, but also offers a public acknowledgement for their important contribution.

Peer-reviewers for Archivos de Neurociencias during 2021:
