

Message from the President

Colleagues anesthesiologists, anesthetists, anesthesiologists subspecialists, residents in the specialty and subspecialty, medical students and nurses:

The Mexican Association of Anesthesiology A.C. is pleased to invite you to «XL Annual Course of Anesthesiology and Perioperative Medicine» which will be held in the World Trade Center, Mexico City, from July 01 to 05.

This time, the event will be listed as a green meeting, we attempt to use the minimum consumption of paper, and our objective is to support the development of an annual update course most ecologically friendly to the environment.

It is an honor for this Board to place at your consideration an academic program of current topics in the practice of perioperative medicine, multidisciplinary and supported by professors from different Societies of Anesthesiology, as the Mexican Federation of Colleges of Anesthesiology A.C., the Mexican Association for the Study and Treatment of Pain A.C., the Mexican Society of Neuroanesthesiology A.C., the Mexican Society of Pediatric Anesthesiology A.C., the Mexican Society of Cardiothoracic Anesthesiologists A.C., the Mexican Society of Anesthesiology in Obstetrics and Gynecology A.C. and the Mexican Society of Trauma Anesthesiology A.C. as well as public and private hospitals in the country.

TIVA America will be present at this event as TIVA México 2014, to show to the Mexican community of anesthesiologists, that it is an organization committed to teaching and pharmacology applied to anesthesia, and that, since 2003, it has been supporting in a nonprofit way, at every country where it has been presented throughout Latin America; it is worth mentioning that the first TIVA México took place in 2007 at the Hospital General de México.

The faculty is composed of distinguished national and international doctors who have excelled in the field of anesthesiology and related subspecialties and that, with the input of his professional clinical, editorial and laboral experience, have as an objective, to contribute innovations with applicability in the practice of our specialty.

The CMA academic commitment to the medical profession of the country is punctual and is represented in a variety of educational activities, such as breakfast with experts, symposia, interactive workshops, lectures, specialty chapters, unconferences, large debates, etc., which aim to provide a dynamic event that gives feedback on various options for the attendance; all this information and the status of the CMA will be available on the new page address: www.comexan.org.mx, with links to www.comexan.com.mx in a current format that we offer for your careful consideration.

We will conduct the «Ninth Annual Symposium on Perioperative Nursing» which to date has been highlighted by the collaboration of the nursing staff in their key role in the current practice of perioperative medicine, with regulatory guidelines, organizational, administrative and labor ensembles intended to provide medical care and safe surgical quality and to strengthen the links inside a team and the performance of a multidisciplinary group.

We will have the First Colloquium of Airway Management, aimed at students of various medical colleges of Mexico City, in order to start each and every one of the attendees in the knowledge of anatomy, physiology and initial management of the airway.

The support of the pharmaceutical industry and dealers has always been and will be key to the development of our academic events, this time, such companies once again demonstrate its commitment to the Mexican anesthesiologist for continuing medical education sponsored by symposia and presence in the exhibition area to interact with the medical attendant in relation to drug and biotech supply of inputs and devices for our specialty.

We hope that our course meets the concerns of all participants; we will attach an evaluation sheet to corroborate your opinions, evaluate results and be able to offer better alternatives every year.

Welcome to the City of Mexico, welcome to the World Trade Center of Mexico City, welcome to the Colonia Napoles, one of the most traditional areas par excellence for its location in the city and that has a range of accommodation and a variety of restaurants that provide the typical atmosphere of Mexico City and also allows easy access by bus, metro and taxi services, as well as several parking lots nearby.

We aim to make your stay enjoyable and enriching and that upon returning home, you have the motivation to continue the support for teaching, academia and reinforce our daily training activities to provide a safe and quality perioperative management in the practice of anesthesiology in this century.

Knowledge is for all!

Juan Heberto Muñoz-Cuevas, M.D.

Presidente del Colegio Mexicano de Anestesiología A.C., 2013-2015
