

MESSAGE FROM THE EDITOR  
Vol. 40. Supl. 1 April-June 2017  
p S4

---

## Dear colleagues

The Mexican College of Anesthesiology has as a fundamental objective to promote and make available to its members and all interested parties a continuous medical update. Within this activity, it is already traditional the course of Update in Anesthesiology and Perioperative Medicine.

In this XLIII Annual Update Course, the Board of Directors, chaired by Dr. Antonio Castellanos Olivares, has organized a course of excellence taught by national and international professors. It will be a week of intense academic activity in which the most current topics in anesthesiology will be discussed. There will be breakfasts with the experts, theoretical-practical workshops, specialty chapters and lectures, activities to be complemented with the 2nd National Meeting of Clinical Research in Anesthesiology, the IV Air-

way Colloquium, the VI Interinstitutional Meeting of Residents in Anesthesiology and the XII Symposium of Nursing in the Perioperative.

This supplement of the Revista Mexicana de Anestesiología includes selected abstracts of lectures given during the Update Course so that they can be consulted through electronic means, which will help to further disseminate our event and to consult its contents.

Sincerely

Raúl Carrillo-Esper, M.D. Academician  
*Director Médico Editorial*  
*Revista Mexicana de Anestesiología*
