

MESSAGE FROM THE PRESIDENT

Vol. 41. Supl. 1 Abril-Junio 2018
p S2

Dr. Jaime Vázquez-Torres*

* President of the Colegio Mexicano de Anestesiología, A.C. Biennium 2017-2019.

*“The first step towards success in whatever field
is to become interested in it.”*
(William Osler)

Medical education brings together the activities that foster the learning of attitudes and values along with the knowledge, skills and abilities that allow the improvement of professional performance to confront the reality of social and technological development at the service of the patient, with the health team in quality perioperative care with safety and efficiency within a professional and ethical framework.

The Colegio Mexicano de Anestesiología, A.C. is pleased to have your participation in the XLIV refresher course in anesthesiology and perioperative medicine, to learn, be, do and give, through the written collaboration of experts who

share their experience and guide the assistant of educational activities, towards making duly reasoned decisions according to the particularities of each patient and the needs that need to be met in the integral pre-anaesthetic evaluation, the complexity of the ideal anesthetic conduction or adapted to the availability of resources and technological advances applicable to specialized surveillance to correct possible critical concurrent contingencies, in addition to learning and sharing acute and chronic pain treatments that improve the quality of care for our patients.

It is therefore in your hands the possibility of increasing through reading, the development of critical thinking and motivation, to integrate the medical community with actions such as research and communicate their daily work to improve our specialty through this, your Mexican Journal of Anesthesiology.
